Good Morning everyone,

I have spoken personally with Barcs, Jim and Adrian about this - and with all of our clients. The OPP is heavily engaged in planning to assist OPS and TPS as per our Provincial mandate - our intelligence supports that operational planning and deployment.

Just sending this to reinforce priorities:

1. Adrian is collecting all information and intelligence and providing it to Incident Commanders for operational planning. This will include all information to inform on numbers, mood, intentions, capabilities, POIs, logistics, access/egress, aggravating/mitigating factors. He will get assistance from all on this email to provide this. He is working directly with Insp Younan but will email his product to Supt Abrams as Strategic Commander, Insp Younan and Supt Alakas.

2. Barcs is coordinating with TPS today in relation to Toronto protests and QP etc. This is a major organizational priority. We will produce an assessment on this today with all intelligence included. Barcs will provide particulars.

3. Intel team is on ground in Ottaw to continue to assess and assist in providing accurate information for planning as covered in point one.

Pat
